

# *BIOLOGICAL PROCESSES AS A POSSIBLE SOURCE FOR RENEWABLE ENERGY*

**2 - 3 November 2009**

Accademia Nazionale dei Lincei  
Palazzo Corsini, Via della Lungara 10, Roma, Italy

This meeting takes origin in the occasion of the closure of the FISR national research project on “Hydrogen Production from Biological Processes”, with the aim of presenting to an international audience the results obtained on the subject by the IDROBIO Italian consortium of research institutions. The occasion is also used to expand the discussion to the general problem of renewable energies and the urgency for the developed countries to adopt a sustainable energetic politics

## **ORGANIZING COMMITTEE:**

Giorgio Mario Giacometti (Padova),  
Lorena Affatato (Napoli),  
Roberto Bassi (Verona),  
Carlo Carrà (Milano)  
Angelo Fontana (Napoli)  
Roberto De Philippis (Firenze)  
Giulio Izzo (Roma)  
Giuseppe Torzillo (Firenze)

**Please fill the registration form: is mandatory, participation is free and if you want you can submit a poster**

International conference on:

*Biological processes as a possible source for renewable energy*

2 - 3 November 2009

Rome, Italy

## Registration Form

Surname: .....

Family name: .....

Address:.....

Arrival date: .....

Are you wishing to present a poster ?            YES     NO

Title of the poster: .....  
.....
